FIRE SWEEPS THROUGH the Industrial Public Warehouse on the Detroit River as the U.S. Coast Guard joined the Detroit Fire Dept. in battling the blaze. Cause of the fire was not determined. A large quantity of milk cartons and farm combines were stored in the building. (AP Wirephoto)

Striptease Film Issue In Fortas' Nomination

WASHINGTON (AP) — A 14-minute strip-tease film entitled "0-7" has become an issue in the fight over Senate confirmation of President Johnson's nomination of Abe Fortas to be chief justice.

Two Senate Judiciary Committee members, Sens. John L. McClellan, D-Ark., and Hiram L. Fong, R-Hawaii, say all their colleagues should see the film before voting on Fortas' nomination.

McClellan said this is one reason he blocked action at a committee meeting Wednesday on a motion by Sen. Philip A. Hart, D-Mich., to recommend that Fortas be confirmed.

"I thought every member of the committee should have an opportunity to see the film before they vote," McClellan said.

Fong said the film was discussed at Wednesday's closed committee session. "All the members are anxious to see it, and I think they should," he said.

McClellan, Fong and Hart earlier this week saw the film

shown by James J. Clancy, a Los Angeles attorney representing Citizens for Decent Literature, Inc.

Clancy subsequently told the full committee that a 5-4 Supreme Court decision, "with Justice Fortas casting the deciding vote," reversed the finding of a federal district judge, a Los Angeles jury, and California appellate courts that the film was hard-core pornography.

"This judgment is representative of his actions in other cases," Clancy testified in refer-

ring to decisions of Fortas in obscenity cases since he became a member of the Supreme Court in 1965.

McClellan described the film "0-7" as "something no civilized country can tolerate." He said he understands it is not permitted to be shown "even in France."

The entire film consists of a girl in bra, garter belt and sheer transparent panties gradually stripping herself naked, mostly while writhing on a couch.

Soviet Problems Stall U.S. Talks

WASHINGTON (AP) — Negotiations for starting U.S.-Soviet talks on curbing the superpower missile race apparently have been stalled by the Kremlin's preoccupation with Czechoslovakia.

This is the explanation widely advanced in Washington as to why the atomic big-two have yet to announce the long-awaited opening of discussions about restraining their own arms competition.

It is now four weeks to the day since Foreign Minister Andrei A. Gromyko officially signaled Soviet readiness to begin the talks, for which Washington had been pressing for 1½ years. U.S. authorities said at the

time that careful preliminary U.S.-Soviet diplomatic exchanges would be necessary to outline the subject matter of the talks and agree on what categories of persons should be assigned to the negotiating teams, since the atomic missiles of the military might of the two great powers.

But these U.S. officials had originally expected that an accord on a time and place to begin the talks would be virtually wrapped up by the time the 17-nation Geneva disarmament conference convened for its summer session July 15.

Police said Evans surrendered and told them, "If my car had jammed, I would have killed you. You police have bothered us too long."

Evans, an astrologer who favors African garb, has conferred with Stokes on several occasions. The mayor described

Steel Negotiations Enter Final Week

PITTSBURGH (AP) — The traditional last-minute war of nerves was in full swing today as the steel labor negotiations moved into the final week.

If no sign of a settlement surfaces in the next few days, the nation's big mills will have to begin the slow and delicate process of closing down. It takes two days or longer to close a steel mill.

There is no public word on whether the industry has made a firm offer to the United Steelworkers Union on its top priority demands for wages, pensions, vacations, unemployment insurance and cost of living scales.

Some local union presidents already have scheduled strategy sessions to decide who will be allowed in the mills for maintenance if there is a strike at midnight next Wednesday.

I.W. Abel, president of the union, said two weeks ago he expected the bargaining to go to the wire as always.

U.P. Blanked

LANSING (AP) — Low bidders on 30 highway construction and improvement projects in 26 counties costing a total of \$18.65 million have been announced by the State Highway Department. None of the projects are in the Upper Peninsula.

THE ROBISON FAMILY, found slain in a cottage near Petoskey, is shown in recent photo, front row, from left, wife Shirley Robison, 40; daughter Susan, 7; Richard Robison, 42; back row, from left, sons Gary, 16, Randall, 12, and Richard, 19. (AP Wirephoto)

GOOD HART (AP) — Emmet County Prosecutor Wayne Richard Smith said Wednesday he feared the investigation into the slaying of a prominent Detroit area family of six at their Lake Michigan cottage could become "a long, painstaking, meticulous affair."

The bodies of Richard C. Robison, 42, his wife and their four children were found Monday in their cottage north of

Good Hart by a caretaker investigating a report of a strong odor near the cottage. Emmet County authorities said the family had been shot nearly one month ago.

The trail is cold and there is nothing that points to any particular source, no suspects, no weapons. We don't know much more than we did yesterday," Smith said.

State police at Grand Haven said Wednesday they questioned

a man at Muskegon but said he apparently had no connection with the slayings. Earlier Muskegon County sheriff's deputies said the man was believed to have escaped from the Traverse City State Hospital.

Smith said investigators found a hammer on the living room floor at the cottage and said there appeared to be blood on it. He declined speculation on how the hammer may have gotten there.

Patient's Plight:

Appeal Planned For Purchasing Kidney Machine

By CLINT DUNATHAN

An Escanaba area woman, Miss Pat Roman, who has twice submitted to unsuccessful kidney transplants, has been accepted as an artificial kidney machine patient at Crystal Falls Municipal Hospital, it is announced by Dr. Douglas Sherk, staff physician.

Meanwhile friends and relatives of Miss Roman, 38, are preparing to launch an appeal for funds to finance the purchase and operation of a "kidney machine" in Escanaba—not only for Miss Roman's benefit but for others who need such a facility.

Miss Roman, the daughter of the late Mr. and Mrs. William Roman, makes her home with Mrs. Walter Opolka of Wells. Presently she is in St. Michael's Hospital Milwaukee and is expected to return home on Sunday or Monday.

The acceptance of Miss Roman as a kidney patient at Crystal Falls will reduce the distance which must be traveled to provide her with the treatment necessary because of her kidney failure.

The Crystal Falls Municipal Hospital Board has authorized the purchase of a second artificial kidney machine after Dr. Sherk advised the Board that Miss Roman had been referred to the Hospital as a third kidney patient. The referral was from the University of Minnesota Hospital at Minneapolis, where she had been a patient.

Technically known as a hemodialysis device, the kidney

machine by mechanical means removes impurities from the blood, serving as an artificial kidney. The machine becomes a matter of life or death when a person loses the normal function of his kidneys through injury or disease.

Patients are "on" the machine twice weekly for periods of about six hours, during which the machine performs the blood purifying function normally handled by the kidneys. The machine circulates the blood through minutely porous coils which are immersed in a purifying solution, the impurities are passed off through coil membranes and washed away, and the blood returns to the patient's circulatory system.

At Crystal Falls a community drive raised \$10,000 in contributions which helped purchase the first machine, and the Hospital Board has authorized buying a second. The patients are Richard DeNeil of Crystal Falls, Miss Pearl Buckman, a Marquette teacher, and now Miss Roman, who will be accepted as the third patient. A fourth patient may be accommodated, said Dr. Sherk.

Miss Roman's sister, Mrs. Kenneth Carlson of Hyde, said today that announcement of an appeal for contributions to purchase a kidney machine for local patients will be made "in the near future."

"There have already been some offers of help, including a benefit race that would be sponsored by the Stock Car Racing Association," she reported. "We have been assured of a room for the machine at Doctors Park."

Besides the purchase of the machine, however, there must be operators trained in its use, and the cost of such training is about \$500, she added.

"While it would help Pat immediately by providing a treatment center near home, it would also be available to other kidney patients of the area," Mrs. Carlson pointed out.

The pavilion was constructed by the Delta County Road Commission with assistance from the Delta County Trades and Labor Council. (Daily Press Photo)

Ladies Day Events Held At Highland

In reviewing the recent Women's U. P. Golf Association tournament which was held at the Highland, Chairman Vicki Beck, assisting Chairman Elaine Nelson and Secretary-Treasurer Carol Davidson drew praise for their efforts during ladies day activities on Wednesday.

Others given special commendation were, Hazen Hengen, Einar Beck, Bill Fairchild, Al Davidson, Tom Swift, Dorothy and Ray Raymond, Rod Kittner and Ed McCarthy.

League chairman Carol Daniels

said that it was one of the association's most successful tournaments.

Winners in the bridge league were: Wilma Perron, second; Margaret Douglas, third; Hazel Bertrand, fourth; Arlene Hendrickson.

The guest prize was awarded to Mrs. John Rodman, and other prize winners were Armine Sundquist, Ethel Manske, and Blanche Christie.

The committee for Wednesday will be Mrs. Frank Adams, chairman, and the Mesdames, Bob Seymour, Ellsworth Nault, Nick Bink, William Perron, James Pascoe, Mark DeGrand, Ralph Drage, Jr., and Alex Malmstead.

For the season, he said,

Pioneer Trail is 72 registrations behind the total of last year, but he attributed most of the decline to the June weather.

July totals, to date, show an increase, he said.

Since the park opened this summer, a total of 1,371 camping parties have registered at the park. A year ago, the total was 1,443.

Nyquist, who is in his first year as park ranger, said the biggest crush of campers is expected during the week of the Upper Peninsula State Fair, Aug. 13-18.

Last year, he said, nearly 100 units filled every available corner of the park on every night of the fair.

The group picnic season also is on, he pointed out, with four group picnics scheduled for the park Sunday.

Pioneer Trail, located off U. S. 2 and 41 between Escanaba and Gladstone, is gaining in popularity among campers every year. It always has been a favorite site for group picnics and this year features a new pavilion on the east side of the park.

The agreement before it takes effect must be ratified by the full delegations from the Nigerian government in Lagos and the secessionist Biafran regime which has been fighting to make eastern Nigeria independent.

Informed sources reported the accord calls for a 10-mile-wide demilitarized corridor running from Enugu to Ogoja, a distance of about 90 miles.

Picking The Nominees

The major political parties hold their national conventions next month, the Republicans first in Miami on Aug. 8, and the Democrats in Chicago on Aug. 26.

With 1,312 votes needed to nominate, the Democrats have pledged 727 votes to Hubert Humphrey so far and 416½ to Eugene McCarthy.

With 667 votes needed to nominate, the Republicans have committed 548 to Richard Nixon and 196 to Nelson Rockefeller.

There are still 551 Republican votes held for native son demonstrators like our own Gov. George Romney of Michigan or otherwise not yet counted publicly as for any candidate.

The Democrats have 1,301 votes — nearly half of their whole convention's delegate roster — in these two categories of native son pledges on the first round of voting or not publicly pledged.

* * *

The polls and much political talk — like that at the national governor's convention this week in Cincinnati — indicate that there is no overwhelming popular enthusiasm in either party for either of their front runners — Nixon and Humphrey — nor for anyone else for that matter.

The political situation indicates that Nixon and Humphrey will be the nominees of the conventions; that they have so many votes committed that it would be difficult — but not impossible — to defeat them.

The public opinion polls indicate that there is strong popular support for Rockefeller, and that he'd attract more middle ground voters than Nixon in a country which is nominally Democratic, and also that McCarthy stirs many Democrats (and some Republicans) whom Humphrey leaves cold.

* * *

These reactions are a part of our disillusioned, troubled times. Both Nixon and Humphrey, pictured as tired old has-beens by the politically disenchanted, are able men. But they don't suit the new image of change for some groups and they have surfaced as the leaders of this year's presidential race at this time because of party structuring for the process of convention control.

McCarthy and Rockefeller have got to beat this game if they're to be nominated and it isn't easy. It is in their interest to remind the public that its wishes do not work directly on the convention through the delegates.

We have, for instance, the Michigan State Central Committee of the Democratic Party sending \$1,000 to the Loyal Democrats of Mississippi who are trying to challenge the regular Democratic delegation at the national convention in Chicago, Mississippi, which has a heavy Negro population, is to be represented at the Chicago convention by a state delegation of 46 that will include only 3 Negroes. Negroes compose 43 pct. of the population and they get 6 pct. of the Democratic delegation.

* * *

Senator McCarthy's managers at the convention will be playing for public belief that whites are getting a similar robbing from the political "bosses." The issue here is whether a political party is an organization by which the voters can bring to public office the man they want, or whether a party becomes the property of those in political power?

Mississippi is an example of the issue. There are about a million Negroes in this state with 2 million population but they're largely disfranchised by the political party setup and when the convention imposes its unit rule they lose altogether. (In unit rule the majority determines how all the votes are cast.)

* * *

McCarthy urges an "open convention" where the candidates for the presidency can come before the delegates and speak. This may seem sensible to voters and TV viewers but the professional pols believe that their long services give them a proprietary right and they run the conventions their way. They don't want the candidates on the floor. It might start a stampede for the wrong man. They want to call the nominee to the floor to accept the accomplished result — the nomination.

Candidates like McCarthy who aren't beneficiaries of this protection say the convention should be "open" and not managed. This is the drama of the Chicago convention and it will have counterpart at Miami.

Coating On Tongue Made Of Dead Cells

By WAYNE G. BRANDSTADT

M.D.
Q—What would cause a white coating on the tongue?

A—The cause is a failure to eat enough tongue-scouring foods, such as toast, raw carrots and nuts, or eating them but not chewing them enough. The coating is made up of one or more layers of dead cells.

Q—I am taking one-third of a glass of diluted hydrochloric acid with vitamin B complex for a geographic tongue. Will this heal the tongue?

A—If your teeth are of normal size and configuration, there is nothing you can do to prevent this except to chew your food more cautiously. If up spontaneously in two to one bites his tongue or his seven days, no treatment is required. It may come back.

Q—My throat and tongue are often sore. I have small lumps on the back of my tongue. Is this normal?

A—These are your taste buds. You'll have to look elsewhere for the cause of the soreness.

(Newspaper Enterprise Assn.)

Vice President To Visit Detroit

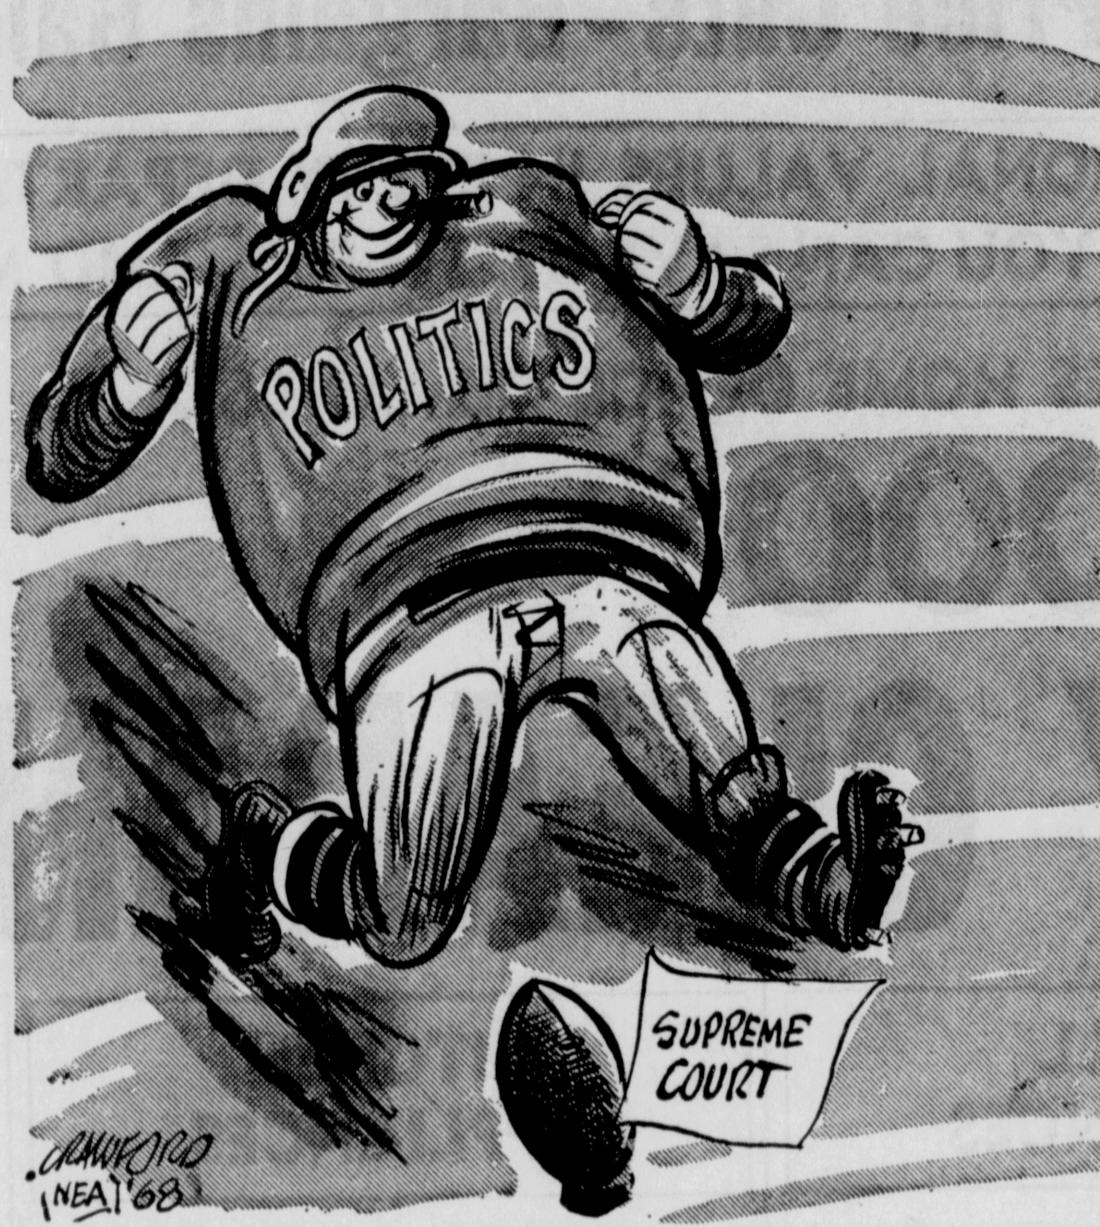

A—Scarlet tongue may be caused by scarlet fever, some types of anemia, niacin deficiency or infection with Candida albicans. The cause for the Democratic presidential nomination, the Detroit Humble tongue may pharynx for President Committee not be sure, some of these causes require prompt treatment.

A spokesman said plans call for the vice president to arrive at Detroit Metropolitan Airport at 10 a.m. and go directly to St. Clair Shores to dedicate the new Chappoton Retention Basin.

Q—What would cause soreness and burning of my mouth and tongue?

A—A sore tongue may be

Preseason Warmup

Draft Law Implications Reviewed

Protests On Draft Are Faring Badly

The recent trial of Dr. Benjamin Spock is a dramatic reminder that citizens should be allowed to take an allegedly unjust law "back to the public" over the heads of public officials, according to a University of Michigan law professor.

"It is by no means likely, as many seem to assume, that a society which permits such conduct will collapse," Professor Joseph L. Sax writes in The Yale Review, a literary quarterly.

In fact, he argued, our legal system "should stand ready to accommodate some degree of advocacy of passive resistance to the draft, for example—as an appropriate means for testing public feeling about the administration of that law."

Contrary to what many think, he added, it is questionable whether "one has all the protection one might need in petitioning the legislature to repeal a law, or asking a judge to make a ruling of invalidity."

It thus becomes necessary at times to violate an allegedly unjust law and to put the question to the juries who represent the larger public, according to Professor Sax. A government, deeply implicated in a "wretched" policy, may have to be "extricated by popular repudiation in a forum more immediately available and less politically compromised" than the ballot box."

Draft law violators, of whom nearly 1,000 were sent to jail last year, are faring "very badly" in the courts with their arguments questioning the legality of the Vietnam war or invoking the right of free speech, Sax noted.

It means, he predicted, that "we are going to be increasingly confronted with a claimed

Opening lead—V K

One of the classic problems faced by declarer at a suit contract is when to pull trumps. If you don't pull them you risk having the defense ruff one of your winners. If you do pull them you may lose control of the hand.

South wins the opening heart lead. His first thought is to draw trumps right away so as to avoid the chance of club ruff against him. He doesn't need dummy's trumps for ruffing purposes.

If he does this it won't require much skill on the part of the defense to beat him. West will hang on to his ace of clubs and not give dummy's club suit a chance to develop.

The winning line of play is for South to save dummy's trumps as potential entries. He must go after clubs immediately.

Let's see what happens. At trick two South leads a low club. West makes his best play and ducks. South can afford to play two rounds of trumps now and should do so.

He wins the second trump lead in his own hand and leads a second club.

If West ducks, South simply leads a third club and eventually will get to dummy with the last trump to get two diamond discards on the long clubs. He will make his contract with an overtrick.

West can stop the overtrick by winning the second club and giving his partner a ruff, but he can't beat the contract.

Of course, West could have beaten the contract had he made the inspired opening lead of a diamond. This would set up two immediate diamond tricks for the defense.

Then if West were smart enough to win the second club and give his partner a ruff, South would be off four tricks before he got around to discarding on clubs.

Would the right of jury nullification lead to an increase of unjust acquittals?

"History is certainly against the notion," Sax noted. "There is no evidence of any such result when the right of jury nullification was recognized either in England or the U.S."

Sax concluded: "It is time for us to recognize, as our forebears did, that it will sometimes be necessary to protest an unjust law by violating it and putting the question of justification to one's fellow citizens."

For one thing, "there is a class of cases in which the government cannot be relied upon to exercise ordinary restraint; those cases in which the men in power at a particular time are themselves the 'victims' of the crime." For another, a court may in ordinary cases stretch its legal interpretations for a defendant's benefit, but it is unlikely to do so in prosecutions for political offenses.

Legislative Inquiry**Private School Aid Meet Here**

A House-Senate committee of the Michigan Legislature studying state aid to nonpublic schools will hold one of a series of public meetings on the subject in Escanaba on Tuesday, Aug. 27 in the State Office Building in Escanaba.

Senator Anthony Stamm, (Kalamazoo), and Rep. William Jowell, (R-Port Huron) are co-chairmen of the committee.

The Legislature wrestled with the subject of aid to nonpublic schools in this year's session but did not enact any. There already is state aid to higher education but Michigan does not now help nonpublic elementary and secondary schools.

Such aid has been proposed by church schools, which are having an increasingly hard time to meet the rising costs of schooling. They have proposed that the state grant a subsidy to the child, rather than the school, and that this would be

Israel Cautious About Airliner

TEL AVIV (AP) — The Israeli government talked softly today about its hijacked airliner despite growing belief abroad that it would retaliate with some action against one of its Arab neighbors.

Algeria, where the plane was forced to land Tuesday by three members of an Arab terrorist organization, also seemed to be moving cautiously.

The Algerian delegate to the United Nations, Tewfik Bouatoura, told U.N. Undersecretary-General Ralph J. Bunche his government is still investigating the hijacking and has not decided what to do with the Boeing 707 jet, its 10 crew members from El Al, the Israeli airline, and the 12 Israeli passengers. The Algerians released 23 non-Israeli passengers Tuesday.

"We have to give the Algerians a chance," an Israeli government spokesman said. "How long we are prepared to wait, nobody is able to say."

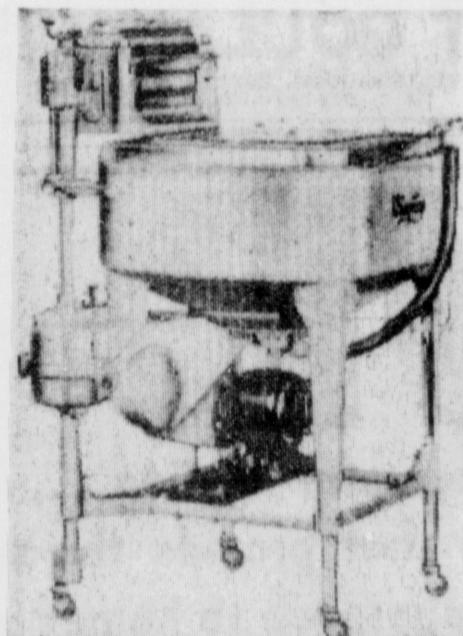

A breaking and entering of a building near Lathrop owned by Joseph LaBumbard, 1001 Superior Ave., Gladstone, is under investigation by State Police. Troopers said a hasp on the door was pried off and an undetermined amount of gasoline was stolen.

The Arab commando group which did the hijacking, the Front for the Liberation of Palestine, said in a Cairo news conference that the detained Israelis would be released only in exchange for Arab commandos held in Israel.

August Hartwig Taken By Death

August Francis Hartwig, 69, of 620 S. 19th St. died at 10:45 a.m. Wednesday at St. Francis Hospital where he had been a patient for two weeks.

He was born Feb. 12, 1899 in Escanaba and was a retired engineer for the Chicago & North Western Railway. Mr. Hartwig was a member of Salem Ev. Lutheran Church of Escanaba.

He is survived by his widow, the former Josephine Flansky; one son, George F. of Rockford, Ill.; one daughter, Mrs. Norbert (Shirley Ann) Couillard of Green Bay, six grandchildren and one brother, Paul Hartwig of Detroit.

Friends may call at the Anderson Funeral Home from 4 to 9 p.m. Friday and the body will be removed to the Salem Lutheran Church at 10 a.m. Saturday where services will be conducted at 11 a.m. with the Rev. John J. Wendland officiating. Burial will be in Lakeview Cemetery.

In Service

Pvt. David R. Martinson, 20, son of Hilding Martinson, 930 Sheridan Road, Escanaba, completed reconnaissance training July 5 at the Army Armor Center, Ft. Knox, Ky. He received eight weeks of training in the methods of scouting and patrolling, with emphasis on the operation of Army jeeps on rugged terrain. Instruction was also given in camouflage techniques, concealment in natural terrain and handling of weapons.

Capt. Stephen M. Rokicki, Perth Amboy, N.J., has arrived for duty at Ent AFB, Colo. A 1958 graduate of Perth Amboy High School, he attended Northern Michigan University. His wife, Susan, is the daughter of Mrs. Cecil White of Escanaba, Mich.

Mrs. Ruth Butler

Mrs. Butler To Stay At Fair

Mrs. Ruth Butler, 72, of Houghton, one of Upper Peninsula's most active women politicians, has been reappointed to the board of managers of the Upper Peninsula State Fair in Escanaba and by Governor Romney and confirmed by the Senate.

Mrs. Butler served a five year term which expired this year and she has been appointed to a second five year term on the fair board, which she has served as vice chairman and chairman.

A Houghton village councilman, she sought election to the Legislature in 1962 and served as a delegate to the Constitutional Convention in 1961-62.

Also appointed to state office from the U.P. by the governor was Lavern O. Trepp, of Iron Mountain, co-owner of Pine Mountain Ski Resort, who was named to the Michigan Ski Area Safety Board for a term expiring June 8, 1972.

Thomas A. Vantier, Lansing, was named to a term on the Liquor Control Commission expiring in 1969.

C&H Helps UOP Boost Profits

DES PLAINES, Ill.—Profits of Universal Oil Products Co. rose 9 per cent for the 6 months ended June 30, after provision for increased taxes, according to M. P. Venema, chairman.

Consolidated net income for the period was \$8,141,405 or 84 cents per share, of which \$3,784,184 or 39 cents per share was earned in the second quarter. Net income for the same periods in 1967, restated to reflect the acquisition of Calumet & Hecla in April of this year, was \$7,410,341 or 77 cents per share for the six months, and \$3,597,211 or 38 cents per share for the second quarter. Gross income for the six months was \$24,900,523 compared to \$21,553,506 on a restated basis for the first half of 1967.

The effect of the 10 per cent federal income tax surcharge, retroactive to Jan. 1, was to reduce first half earnings by approximately 9 per cent, equivalent to about \$756,000 or 8 cents per share.

John O. Logan, president, reported companywide product sales increased 25 per cent for the six months and 28 per cent for the second quarter over comparable 1967 figures. He said newly-acquired Calumet & Hecla was a major contributor to the improvement.

Some areas of the company's business were not up to current year's projections, including the Fragrances Division, whose operations in France were adversely affected by the recent unrest in that country.

Legislature Ends Session

LANSING (AP) — The Legislature recessed for three weeks yesterday without overriding the governor's veto of a riot bill, but backers of the measure vowed to try again next month.

Fighting off Democratic objections by a one-vote margin, GOP leaders in the House pushed through a resolution which put the Legislature in recess until Aug. 15, with final adjournment scheduled the following day.

During the debate on the resolution, Majority Floor Leader William Hampton, R-Bloomfield Hills, said, "The governor's office has indicated to us that there are absolutely no plans at this time for a special session" of the Legislature in the fall.

Once lawmakers declare themselves adjourned, only the governor can call them back to Lansing. In that event, the Legislature is limited to consideration of issues authorized by the governor.

Still eligible for House action when lawmakers return in August, however, will be a controversial antiriot measure, vetoed by Gov. George Romney, which grants local officials emergency powers to deal with actual or threatened disorders.

The House split 60-40 Tuesday on overriding Romney's veto, falling 13 votes short of the two-thirds majority.

Before they struck, Detroit area operating engineers had a gross wage of \$5.99 hourly.

Neither the union nor contractors would disclose details of the Lansing package pending a ratification vote tentatively scheduled for next Thursday.

Romney Proposed 'Conscience' Vow

CINCINNATI, Ohio (AP) — The National Governors Conference Wednesday approved a "declaration of conscience" offered by Michigan Gov. George Romney after a sharp debate.

The resolution urged the governors to "rededicate ourselves" to the principle of "the paramount status of the right to individual human dignity over property or other rights."

Gov. Albert T. Brewer of Alabama opposed the resolution, complaining it "subordinates property rights to human rights."

The declaration passed by a vote of 21-5, with Brewer and Govs. Lester Maddox of Georgia, Mills Godwin of Virginia, Claude Kirk of Florida and Ronald Reagan of California opposed.

Kirk and Reagan later changed their votes to abstentions, saying they objected to the wording of the resolution, not the principle.

Former Escanaban Names Spectacle

Mrs. Richard Victorson, of 214 E. 14th Ave., Sault Ste. Marie, the former Delores Waak of Escanaba, won the Sault Tricentenary contest to Name the Spectacle with the name "Encore '68". She received a prize for her entry, selected from more than 50.

"Encore '68" will run from Aug. 14 through the 24th with a cast of hundreds of local participants.

TERMITIC COLORS

The royal or reproductive adult termites have brown or black bodies and fully developed wings. The adult worker and soldier termites are wingless and grayish white in color.

Watercraft Rite Slated Sunday At Menominee

MENOMINEE — The annual sion will form outside the hotel ceremony started at Fayette in Delta County before it was shifted to Menominee — will be held Sunday at the Great Lakes Memorial Marina for the third consecutive year.

The annual yacht club race for the Bishop Noe Trophy will be held after the ceremony.

For the past two years the Blessing has drawn some 12,000 boaters and visitors to Menominee. Yachtsmen from all over the Great Lakes also come for the 100-mile race which is held the day before the blessing each year. The traditional ceremony

savior's calming of the Waves of Lake Genesee, and the blessing that has been invoked by sailors setting out on a journey ever since the earliest Christian days.

The boat blessing, a prayer for God's protection of those who sail upon the open seas, was first inaugurated at Fayette Harbor in 1949. The Rev. Fr. James J. Schaefer, formerly of the Fayette Church and presently pastor of the Epiphany Church here, began the tradition at the request of fishermen operating out of Fayette Harbor. They, like ancient Norsemen, asked guidance and help on their voyages.

The Blessing of the Fleet was held annually in Fayette Harbor for 16 years. When the Garden Peninsula area at Fayette became a state park, the Menominee marina and park were selected as the most suitable

Death Claims Mrs. Spangles

Mrs. Anna Elizabeth Spangles, 79, of 321 N. Avers Ave., Chicago died this morning at Garfield Park Community Hospital in Chicago.

She was born Aug. 28, 1888 in Escanaba and had resided in Chicago for the past 20 years.

Survivors include her husband, Charles and one son Joseph, both of Chicago and a sister, Mrs. Aaron Marstrom of Everett, Wash.

Friends may call at the Anderson Funeral Home after 6 p.m. Friday and complete funeral services are tentatively set for 1:30 p.m. Saturday at the funeral home chapel. The Rev. Karl J. Hammar will officiate and burial will be in Lakeview Cemetery.

Methodist Groups Meet On Merger

PEORIA, Ill. (AP) — Representatives from nine Midwestern states, are meeting this week to work out administrative and boundary details arising from the merger of the former Methodist and Evangelical United Brethren churches.

The churches formalized their merger into the United Methodist Church in Dallas April 23.

The five-day meeting, ending Sunday, of the North Central Jurisdictional Conference is considering such things as assignment of bishops and election of representatives to national and international boards and agencies.

In addition to Michigan, states sending delegates are North Dakota, South Dakota, Iowa, Wisconsin, Minnesota, Indiana, Illinois and Ohio.

THE CRISIS THAT WASN'T

Today, there are many quick victories over disease. Each might be described as a crisis that didn't quite happen — thanks to today's superior medicinal agents.

Modern medicines prescribed by your physician score amazing triumphs over diseases which, only a decade ago, were almost certain to become dangerously serious.

Present-day pharmaceuticals, such as the antibiotics, require complex equipment, intricate controls and highly skilled technicians for production. Although somewhat higher in cost, they actually are an investment in economy. They effect an earlier cure and cut down expensive sick-bed time.

We are staffed and equipped to fill your doctor's prescriptions promptly at prices that are fair.

ERCTION OF STEEL for the quarter mile long new mill to house the huge No. 3 paper machine at Escanaba Paper Co.'s plant at Groos is progressing rapidly under administration of Rust Engineering Co., the general contractors. The view here is through the main paper machine bay of the mill and the huge size of the structure can be judged by the

men at bottom right on the ground, and the two steelworkers at top left of the picture. The forms are for the foundation which will bear the heavy machinery now under construction for the mill. The machine will produce a sheet of paper 25 feet wide. (Daily Press Photo by Christine Olson)

Court Upholds Murder Verdict

LANSING (AP) — The State Court of Appeals has upheld the first-degree murder conviction of a bank robber whose partner gunned down a policeman inside the bank.

Under Michigan's "felony-murder rule," a participant in a felony during which murder is committed is liable for a murder conviction.

Defendant Roy Bowen appealed his Cass County circuit court sentence, claiming that he and his unidentified partner had agreed not to harm anyone during the robbery, and also that the holdup had been completed before the policeman was shot.

The Appeals Court disagreed on both counts.

"If he intends to commit a robbery and clearly contemplates a violent reaction to any resistance by a victim, then the rule will apply to him if a murder occurs at the hands of his accomplice," it said.

It also said the crime was still in progress at the time of the shooting since the two robbers had not completed their escape.

In a Genesee County case, the Appeals Court upheld the unarmed robbery conviction of John R. Morris, who complained during his trial that his court-appointed attorney was not prepared for the case.

The Appeals Court noted Morris had not asked to have the attorney dismissed and added, "defendant cannot maintain his right to appointed counsel and simultaneously conduct his own case."

The head of a comet is a mass of gas and particles of solid matter.

Health Council Elects Monday

Delta County Health Council will meet Monday, July 29, at 7:30 p.m. in the Chamber of Commerce building to hear committee report on a constitution and by-laws and to elect officers.

Charles Follo is temporary chairman of the Council.

Attending will be Thomas Reim, of Iron Mountain, chairman of Zone 2 (Dickinson, Menominee and Delta counties), of the U.P. Health Council, and Rev. Paul Landstrom, of Marquette, chairman of Zone 3 (Marquette and Alger counties.)

Membership of the Delta County Health Council is open to all interested persons. Its purpose is the promotion of public health. It is organized under Public Law 89749 passed by Congress in 1966. Governor Romney has appointed a state commission headed by Mrs. Betty Tableman, of Lansing, which is helping to organize the regions of the state into health councils. Within the regions there will be county health councils like Delta's.

Charles Follo is temporary chairman of the Council.

Attending will be Thomas Reim, of Iron Mountain, chairman of Zone 2 (Dickinson, Menominee and Delta counties), of the U.P. Health Council, and Rev. Paul Landstrom, of Marquette, chairman of Zone 3 (Marquette and Alger counties.)

Employers who are members of Council 29 of the American Federation of State County and Municipal Employees staged a three-day strike in early July to support their new contract demands.

Houghton, Baraga, Keweenaw, Iron, Ontonagon and Gogebic counties have been organized into Zone 1 and have been functioning for two years. Marquette County organized recently and is functioning in a zone with Alger County.

Cottonseed flour is used in commercial bakeries.

Flint, Employes Reach Agreement

FLINT (AP) — The City of Flint and its municipal employees have reached tentative agreement on a new two-year contract providing an immediate 20-cent hourly wage increase and increases each six months thereafter to Jan. 1, 1970.

Employers who are members of Council 29 of the American Federation of State County and Municipal Employees staged a three-day strike in early July to support their new contract demands.

Mead's Sales, Earnings Climb

DAYTON, O. — Mead Corp. announced today that both sales and earnings increased during the second quarter of this year.

According to Howard E. Whitaker, chairman, sales for the second quarter, ending June 30, were \$173 million. This is an increase of 9 per cent over the \$158 million figure reported for the same quarter last year.

Earnings for the quarter rose 17½ per cent, excluding the effects of the surcharge. Even with the surcharge, Mead's earnings totaled \$6,099,656 in the second quarter.

Sales during the first half of 1968 totaled \$332 million, a 5 per cent increase over the \$315 million reported for a comparable period in 1967.

First half earnings for 1968 were reported at \$10 million, or \$1.59 per common share, compared to \$11 million or \$1.76 per common share in the first half of 1967.

Taxes on Mead's income during the second quarter of 1968 were \$4,783,000, compared to \$4,003,000 in the same period last year.

"We are generally optimistic as we view the balance of

U.P. Parish Sets Reunion In Ghost Town

PHOENIX (AP) — The Methodist church in nearby Central Mine, long a ghost town on the Keweenaw Peninsula, will hold its 62nd annual reunion Sunday.

Relatives of the Cornish Englishmen who once dug copper at Central Mine keep the church in repair for the annual reunion and the church's only service throughout the year.

Central Mine, phenomenally rich in ore when it opened in 1868, played out about 1890 and the Cornishmen, known as "Cousin Jacks," scattered elsewhere in Michigan's Upper Peninsula, leaving Central Mine a ghost town.

South Vietnamese and Enemy casualties of 156 and 1,248 dead, respectively, were slightly less than the week before, but the number of Americans wounded increased considerably, from 1,337 in the week that ended July 13 to 2,014 last week.

SAIGON (AP) — Fifty of America's most powerful bombers, the U.S. Air Force's B-52s, attacked enemy base camps along the Cambodian border north of Saigon and in the central highlands Wednesday and today.

Senior U.S. officers said the heavy raids were made because of "a lot of enemy activity."

Flying in formations of five planes each, 10 waves of the Stratofortresses dropped 1,500 tons of explosives.

The U.S. Command also announced the loss of two more fighter-bombers, a Navy F4 Phantom downed about 150 miles north of the demilitarized zone and an Air Force Phantom which was hit by enemy fire in South Vietnam and crashed into Da Nang harbor.

All four fliers were rescued.

The Navy plane was the 868th U.S. warplane lost in combat over North Vietnam, while the other Phantom was the 286th such combat loss in the South.

The prolonged lull in the ground war, now is in its fifth week, was reflected in the weekly casualty report. U.S. headquarters said 157 Americans were killed in combat last week, the lowest weekly total since early last October. It was the fourth consecutive week the total of U.S. deaths was below 200.

South Vietnamese and Enemy casualties of 156 and 1,248 dead, respectively, were slightly less than the week before, but the number of Americans wounded increased considerably, from 1,337 in the week that ended July 13 to 2,014 last week.

Packers Uncover Soccer Style Booter

GREEN BAY—Metro Gerela had a dream. Somebody handed him a football last year and, with a sweeping soccer style approach, he split the uprights from 60 yards out.

"I worked out informally with the British Columbia Lions," the 23 year old Canadian recalled here Tuesday. "I was encouraged by the results. Then I drove down to Seattle, bought an American (NFL) ball and

began kicking 230 times a day." Metro Gerela's only association with sports was playing amateur soccer in Vancouver, although one brother was the regular kicker on the B.C. Lions and another plays college football at New Mexico State.

"My brother, Ted, told me to go to the states because American professional teams pay more for a specialist than Canadian teams," said Gerela.

"I wrote seven teams and only the Packers offered to pay my way to training camp. Now I'm happy that things worked out this way."

The way things turned out, Metro is very happy. The switch kicker (he boots field goals with his right foot and kicks off with his left) has beaten out three other candidates.

He has been without question the surprise of the free agents

invited by the Packers to training camp, but not a surprise to the Packers' coaching staff.

"After he wrote us for a tryout," said Pat Pepple, chief talent scout, "we had someone in Vancouver look at him closely and we were told that he was good enough to come to camp."

Gerela readily admits his chances for steady employment are marginal because he is now

bidding against veterans Jerry Kramer and Chuck Mercein, although Don Chandler has retired.

Being strictly a place kicking specialist, Gerela does not participate in any other drills. But he wants to become aware of every phase of the game and closely follows scrimmages and squad meetings.

At 5-11, 182 pounds, Gerela

is the smallest player on the Packers' roster but he isn't ducking collisions with the big boys. "I wish I knew as much about blocking and tackling as the others," he said wishfully, "but if the occasion arises, I'll hit anybody out there."

Metro can only place kick. To his embarrassment, his first punt sailed backwards over his head.

"I slapped the ball down on my foot," he explained, "rather than set it down. But I'll get the hang of it — I'll do anything to stay."

If Metro Gerela of Ukrainian-Italian ancestry makes the grade he will join other notable free agents such as Willie Wood, Chuck Mercein, Bob Brown, Dick Capp and Doug Hart. Professional football players are where you find them.

U.P. Little League Playoffs Scheduled

For the second time in its 13 year history, Escanaba Little League fans will have the opportunity to watch the Upper Michigan Championship games in Escanaba when Iron Mountain face K. I. Sawyer tomorrow afternoon at 3 and Lake of the Clouds plays Menominee at 4:30. The championship game will be played at 2:00 Saturday.

Five years ago when the district included teams from Wisconsin, Escanaba lost in the championship game to Superior 4 to 3. Escanaba failed to make the tournament picture this year, but several of the players,

from up around Sagola and Channing where they teeth on baseballs.

Returning to the tournament picture after an absence of several years, K. I. Sawyer has also caught the Little League fever and plans to send in several buses of fans to watch their favorites. K. I. advanced to the finals by way of last weekend victories over Portage Lake and Calumet.

Menominee, the local area winner which eliminated a good Escanaba team, is big and will be back with more confidence to face Lake of the Clouds from the western end of the Peninsula. The White Pine entry moved into the finals by shutting out Bessemer 4 to 0, and out-lasting Ironwood 8 to 7. This year's Michigan District winner will face Wisconsin District No. 3 champion Tuesday night in either Iron Mountain or Menominee in a Bi-Sectional to qualify for the Sectional in Wisconsin on Friday and Saturday.

Bob "Oakie" Anderson will again serve as Umpire and Chief with officials from Cooks and K. I. Sawyer working the bases. Fred and Fran Gravelle will handle the mike and serve as official scorers, and Matt Smith will work the score board.

Flat Rock Nips Mead On Homer

HOYT WILHELM, the ageless wonder of the Chicago White Sox, set a record last night when he strode to the mound in the ninth inning of a game with the Oakland Athletics for his 907th game appearance. This erased Cy Young's 906 mark that had stood since 1911 and once was considered invincible. (AP Wirephoto)

Flat Rock and the Escanaba Merchants posted victories in the Escanaba Softball Association. Flat Rock nipped Mead Paper, 2-1, and the Merchants got back on the winning trail blanking Floyd's Service of Trenary, 3-0.

The Merchants scored three runs on three hits in the first inning and were held hitless and scoreless from that point by Trenary pitcher Sonny Paschon. Bill McGovern scattered four hits and struck out four picking up the victory.

A home run by Jim Pinar in the top of the seventh inning accounted for Flat Rock's two runs. Mead Paper scored their lone run in the first inning. Billy Smith got credit for the victory and Ron Smith was charged with the loss.

Games tonight:

6:39 — Floyd's Service vs. Mead Paper at Trenary.

6:30 — Stonehouse vs. Mead Jr. at Webster.

6:30 — Independents vs. Mid-Town Raiders.

8 — Michigan Hotel vs. La-Fave's Raiders.

Iverson, Richer Battle In Feature

Bob Iverson, Jerry Richer, ed out in front on the seventh lap. For the next 13 laps he and Orvis Valiquette captured honors in the modified division, while five different drivers took honors in the sportsman class in stock car racing Wednesday night in Norway.

In the best race of the night, Iverson of Hyde took the modified feature. Richer had taken the lead from Jim Valiquette on the sixth lap, but a wreck caused a restart, and Iverson jumped

ed out in front on the seventh lap. For the next 13 laps he and Richer battled neck and neck with Iverson winning by a car length.

In the heats, Valiquette took the lead from Dave Hoskins on the seventh lap and picked up his first win of the year. In the third heat, Richer took the lead on the third lap and this time beat Iverson to the finish line by a half a car length.

The accident marred 20 lap sportsman feature was finally won by Dick Peterson of Ensign. Three restarts were necessary in the first seven laps before the race finally got under way with Peterson getting the lead on the third restart, holding off Jim Barron of Correll, who finished second.

Joe Haferkorn of Norway avoided the many wrecks in the semi-feature to pick up the checkered flag, while in the heats, Ron Paquette of Kingsford captured the fast third heat, with Barron again placing second. Art Richer of Schaffner, who had trouble qualifying, ran in the second heat and rode to an easy win. Bill Coron of Iron Mountain survived two restarts to capture the first heat.

Modified:

First heat - 1. Valiquette, 2. Hosking, 3. Don Benoit, Esc.

Second heat - 1. Richer, 2. Iverson, 3. Art Ruperd, Jr., Esc.

Fastest Qualifier, Bob Iverson, 19.36.

Sportsman:

First heat - 1. Coron, 2. Dan Rall, Kings, 3. Willie Gasparino, Norway.

Second heat - 1. Richer, 2. Haferkorn, 3. Hoppy Mott, Norway.

Third heat - 1. Paquette, 2. Barron, 3. Gordon Peterson, Stonington.

Semi-feature - 1. Haferkorn, 2. Coron, 3. Richer.

Feature - 1. Peterson, 2. Barron, 3. G. Peterson.

Fastest Qualifier, Ron Paquette, 21.18.

GLADSTONE

MARK HOPKINS speeds away to begin the 76th hour of continuous motion on one Hiawatha bicycle while the other members of the bicycle marathon team rest before their temporary home, a tent. Waiting for their turns to ride are, from left: David Hopkins, Mike Pavlovski, Wayne Louis and Steve Schoch. (Don Pavlovski Photos)

'Bike-Athon' Team May Set U.P. Record Tonight

Barring unforeseen circumstances, a team of bicycle riders in Gladstone will establish a new Upper Peninsula record at 6:01 p. m. today for the most hours logged on a single bicycle in one non-stop ride.

The team members—Mark and David Hopkins, Mark Pavlovski, Wayne Louis and Steve Schoch—have been riding a bicycle in shifts since 3 p. m. Saturday in an attempt to defeat the 123-hour Upper Peninsula record set last week by a "bike-athon" team at K. I. Sawyer Air Force Base.

The Gladstone boys absorbed their marathon mania following a visit last week to the air base, where the Sawyer team, composed of dependents of military personnel, set the U. P. record despite a series of obstacles.

The Sawyer team had logged 27 hours when one of the riders fell from the bicycle which was un witnessed but which caused the boys to disqualify themselves "because we're Boy Scouts." The team

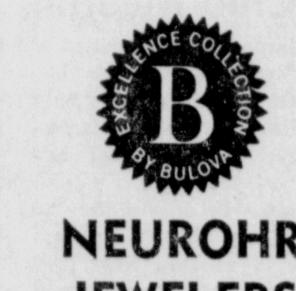

MARK PAVLOVSKI, left, continues to run the marathon bicycle after jumping off in order to let Mark Hopkins assume his shift without stopping the vehicle. The team is only a few hours short of breaking the Upper Peninsula record of 123 hours of non-stop bicycle riding. The world record, set in Flint on July 19, is 250 hours.

began all over again and finally established its record in a ride which ended at a Scout camp near Munising—a change of plans necessitated by the scheduled movement of Scout troops to the camp.

The determination of bicyclists is successful.

The rules state that the bicycle used in a marathon must be inspected in advance by State Police and that an adult must be able to verify the starting time. The most important regulation, however, is that the bicycle must be kept in continuous motion.

Surviving besides his parents are a sister, Sherri Lynn, at home; his maternal grandparents, Mr. and Mrs. Richard Sandstrom, the paternal grandparents, Mr. and Mrs. Evert Rosenthal and the maternal great grandparents, Mr. and Mrs. Sig Sandstrom, all of Gladstone, and paternal great grandparents, Mr. and Mrs. Edward Eldridge of Pompano Beach, Fla.

LEGAL NOTICES

Masonville Township Ordinance No. 4

Junk-Yard Ordinance

We, the Township Board of Masonville, Delta County, Michigan hereby resolve that it shall be unlawful to operate any junk-yard or automobile dismantling lot without first securing a license from said Township Board. The annual license fee shall be the amount of Twenty-five (\$25.00). Dial 786-1157 and this license shall be issued by the Township Board only after the person corporation or co-partnership shall have complied with all the reasonable rules and regulations laid down by said Township Board. Act 34 of 1955 as amended.

Any violation of said rules and regulations shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a fine not exceeding One hundred (\$100.00) Dollars, or by imprisonment in the County jail not to exceed ninety (90) days or both such fines and imprisonment at the discretion of the court.

This Ordinance shall be published in the Escanaba Daily Press Ton (10) Days after passage; and be effectual Thirty (30) Days after publication in accordance with the Statutes.

Passed on July 18, 1968, by the following vote of the Township Board Members.

Henry W. Vistke X
Ruth A. Sundberg X
Mildred Stenlund X
George Anderson X
Lee Lagerquist X

Publication on July 25, 1968.

Tree Marketing Ballot Aug. 1-15

Michigan's Christmas tree producers will have the opportunity to vote Aug. 1 through 15 on a proposed statewide Christmas tree marketing program.

The proposal, as outlined in a report prepared by John K. Trockie, Michigan State University district marketing agent, calls for a program in which Michigan Christmas tree producers could create a better market and demand for their product through an advertising and upgrading program.

If approved, any grower who sold over \$800 worth of Christmas trees in any one of the last three producing seasons would be required to participate. Each producer would be assessed a maximum of two cents per tree. Funds would be used for advertising and promotion, combating adverse or unfair publicity, research, providing market information and generally bettering the market for Michigan trees.

A committee of 13 Christmas tree producers, nominated in producer-held elections and appointed officially by the governor, would administer the program.

Acceptance of the program requires affirmative vote of two-thirds of the producers representing 51 per cent of the

Strikers Begin Political Wiring

CHICAGO (AP) — Some 20 members of the striking International Brotherhood of Electrical Workers will begin today installing communications equipment for the Democratic National Convention.

The men are the vanguard of a work force of electrical workers that eventually will number 300 volunteers. An IBEW spokesman said Wednesday cable pullers will begin laying wires for the convention, which opens Aug. 26 in the International Amphitheatre.

The work is late getting started because of an IBEW strike against Illinois Bell Telephone Co., which started May 8. The IBEW came forward Tuesday with an emergency plan by which 300 volunteers out of the 11,800 strikers will install telephone equipment and news machinery.

There had been speculation the convention might be moved from Chicago but the IBEW plan, agreed to by Illinois Bell, ended that.

Air Traffic Up

WASHINGTON (AP) — The Air Transport Association says passenger traffic on the scheduled domestic airlines was 17 per cent greater in the first six months of 1968 than in the comparable period of 1967.

RECENTLY returning from one year tour of duty in Vietnam, Spec. 5 Rodney J. Chapla has completed three years of active duty with the U.S. Army and has returned to the Escanaba area. While in Vietnam, Spec. 5 Chapla served as chief operator of the AnKhe Army MARS station, phone patching calls home for the men by amateur radio. Chapla is the son of Mr. and Mrs. Joseph Chapla, Rte. 1 Escanaba and is married to the former Joanne Derouin.

volume of Christmas trees, or 51 per cent of the producers representing two-thirds of the volume of Christmas trees sold. Information may be obtained from the local Cooperative Extension Service office.

Harnischfeger Announces New Engineer Choices

Harnischfeger Corp. has named Calvin W. Moran to the new post of corporate industrial engineer at Milwaukee. He has been assistant general manager of a Masonite Corp. plant in Cincinnati. Harnischfeger also has named Edward King staff industrial engineer, Milwaukee operations.

In Escanaba, Samuel D. Hoyt has been appointed chief industrial engineer for the firm's construction equipment plant and James M. Utt named plant industrial engineer for the company's welding equipment operations.

Ruppe Asks More Food Aid Funds

WASHINGTON — "If we are going to eliminate hunger and malnutrition in this country," Congressman Phil Ruppe told the House of Representatives today, "we have to provide the tools. In amendments to the Food Stamp Act of 1964, Ruppe proposed a four-year extension for the act without monetary limitations on future appropriations.

The bill being considered by the House of Representatives grants a one-year extension with a slight increase on the ceiling on expenditures.

Police Retain Pursuit Policy

EAST LANSING (AP) — State Police say their policy on high speed pursuit of fleeing motorists will remain unchanged, with "maximum effort within the bounds of good judgment to apprehend all offenders."

The police chase policy has been under discussion since the recent deaths of two Chicago youngsters as the result of a high speed police chase in that city.

"In each case," said Capt. John Amthor, commanding officer of the Safety and Traffic Division, "the danger to the public, the officer and his equipment is carefully considered."

Some people, he said, have suggested that police give up the chase when the offender reaches a given speed, such as 70 m.p.h.

Every runaway knew police would give up at a certain speed, Amthor said, the violator simply would speed beyond that limit, greatly increasing the danger of his reckless driving and practically nullifying the enforcement of the speed law.

Amthor said State Police are told to consider all factors involved before entering pursuit action. These include the neighborhood, road conditions, presence of pedestrians, time of day, weather and traffic.

State Spending \$102,000 To Aid Cultural Works

A programming budget of approximately \$102,000 for the fiscal year beginning July 1, 1968, has been allocated by the 15-member Council of the Michigan State Council for the Arts.

Monies were divided between the Council's four program areas: consultant service; touring attractions, mini-grants and special projects.

The Michigan legislature ap-

propriated \$109,000 for the cultural agency's third year of operation. An estimated \$38,000 is expected from federal sources, according to the National Foundation on the Arts.

A majority of the Council's programs with the exception of the touring attractions segment, involves funding to statewide groups concerned with cultural improvements at the local level.

MSCA committees considered more than 70 special project requests requiring nearly \$1 million for implementation. Approved in concept and referred to the Council for final deliberation were 52 projects.

Approved for funding were

Canker Worms Hit Near Shakey Lakes

Defoliated by an infestation of the fall canker worm, in May and June, more than 80 acres of hardwood timberlands in the Shakey Lakes area of Menominee County west of Stephenson has been largely refoliated again. Conservation Department foresters report.

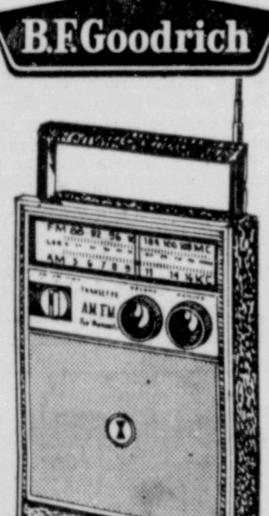

The inchworms that cause the defoliation were sprayed in Shakey Lakes County Park because they were pestiferous for recreationists, but elsewhere there was no action against them. Foresters said that they did not look for any loss of trees nor enduring damage.
